**PRODUCT INFORMATION**

The CD contains copies of papers and presentations, digital photographs and video footage of the staged collisions, black box data from each of the collisions, team results and drawings of the collision scenes. Also included is a copy of the conference program, trade show listings and sponsor details.

The proceedings are presented in a web page format with links to conference papers images and other conference information. The CD is self contained - an Internet connection is not required to view the proceedings. Windows 95/98/NT compatible software is included to allow viewing of the included documents (Adobe Acrobat and PowerPoint viewer).
